VERMIN FROM VENUS-Sex On Planet-X

INK DISEASE

Not as bad as it sounds. The Vermin play a real Ramones- influenced gritty type of punk and although their obsession with women, bondage and the color pink make it a little tough to take them seriously, pay attention and you'll hear some good songs. For now, "Sex on Planet X" is a worthy entry in the fetish-rock sweepstakes.

PLANET X

MAXIMUMROCKNROLL

Raucous/funny themes and a thundering mid- to fast-speed punk attack meld with a flailing guitars on this effort. The title track and a few others rock solidly.

Flipside Fanzine

Well played, harmony framed punk rock. A couple of thrashers 'n metal ditties.
